DISARM ISRAEL
LIFT THE BAN

On 6 September at 1pm, thousands are expected to peacefully defy the proscription of *Palestine Action* in a protest organised by *Defend our Juries*. The organisers of the *Protest is not Terrorism* open letter, signed by over 1700 individuals and a growing list of trade union bodies, including the NEU NEC, are calling for a solidarity delegation to attend. Our delegation is a response to *Defend our Juries'* call for a 'witness circle' of people who want to show their opposition to the repression of freedom of expression and peaceful assembly after over 500 were arrested at a similar protest on 9 August.

We are urging trade unionists, activists in the Palestine solidarity and anti-war movements and anyone who wants to defend the right to protest and show their solidarity with people risking arrest by witnessing the action. Please RSVP here so that we can update you with information about about the event.
